Garden Checklist

By California Association of Nurserymen

1. Roses are the big thing at nurseries this week. New varieties, old varieties—they're all available in bare root now.
2. You can give the first dormant spray to peaches and nectarines now. Ask your C.A.N. nurseryman about the mixture to use.
3. Secure new long canes on climbing roses against the possibility of storm damage.
4. All evergreen trees and shrubs are on the planting list this month, as are a good many deciduous ones.
5. House plants can take up the slack when winter weather keeps you out of the garden. C.A.N. nurseries have a varied supply of these to choose from.
